

## Non-Emergency Transportation Assistance Is Available!

Our purpose is to help patients overcome transportation barriers by providing options to doctors' appointments, screenings, hospital visits and other health care needs.

We have round trip transportation options to adult cancer screening services with medical providers throughout New Jersey. This program is open to all adult participants in need of cancer screening services and supports.

### We provide the following transportation assistance and linkages for:

- care service
- taxi service
- medical transport service

To learn more about this program and how we may be able to assist in your transportation needs, contact our ScreenNJ Navigation Team today!

Please make your request within 3 days of your appointment. You can also fill out a request using the link or QR code below!
