# Cancer screening saves lives.

## **Screening Recommendations**

These recommendations are for people at average risk for certain cancers. Talk to a doctor about which tests you might need and the screening schedule that's right for you. It's a good idea to also talk about risk factors, such as lifestyle behaviors and family history that may put you or your loved one at higher risk.

#### Age 25-39

 Cervical cancer screening recommended for people with a cervix beginning at age 25.

#### Age 40-49

- Breast cancer screening recommended beginning at age 45, with the option to begin at age 40.
- Cervical cancer screening recommended for people with a cervix.
- Colorectal cancer screening recommended for everyone beginning at age 45.
- At age 45, African-Americans should discuss prostate cancer screening with a doctor.

#### Age 50+

- Breast cancer screening recommended.
- Cervical cancer screening recommended.
- Colorectal cancer screening recommended.
- People who currently smoke or formerly smoked should discuss lung cancer screening with a doctor.
- Discussing prostate cancer screening with a doctor recommended.

## **Questions to Ask a Doctor**

- What cancer screening tests are recommended for someone my age?
- How often should I get the screening tests?
- Where can I go to get screened?
- How do I schedule my screening tests?
- Will my screening tests (or other costs) be covered by my health insurance?
- What will the screening tests cost if they are not covered by insurance?

### **Cancer Screening Conversation Starters**

- I care about you and your health. Are you getting regular cancer screening tests?
- Did you know there are tests that can catch changes in your body before they become cancer?
- My breast/colorectal/cervical cancer screening is coming up. Have you scheduled yours yet?
- Regular cancer screening is important. Is there anything I can do to help you get screened, like get information, schedule an appointment, or help with childcare or transportation?
