

CANCER SCREENING SAVES LIVES

YOU + TWO

<https://go.rutgers.edu/youplustwo>

When you schedule a screening for yourself, ask two others to also schedule theirs!

NJ Department of Health Offers Free Cancer Screening Statewide

Cancer is the second leading cause of death in New Jersey and is associated with premature death among residents.

The New Jersey Cancer Education and Early Detection (NJCEED) program provides free comprehensive breast, cervical, prostate, and colorectal cancer screening, health education, and outreach.

These services are available in all 21 counties for all genders.

***When you schedule a screening for yourself,
ask two others to also schedule theirs!***

Criteria:

- At least 21 years of age (unless high risk)
- NJ residency regardless of citizenship status
- Have incomes less than or equal to 250% of the Federal Poverty Level.
- No or limited health insurance coverage

Services include: mammograms, clinical breast examinations, Pap tests, pelvic examinations, colorectal and prostate cancer screening, and diagnostic services for positive screening results.

For more information or to find a location in your county, visit:
